

# WELCOME TO THE INAUGURAL LECTURE OF UM101: ANALYSIS & LINEAR ALGEBRA – I!

Gautam Bharali  
Indian Institute of Science

e-mail: [bharali@iisc.ac.in](mailto:bharali@iisc.ac.in)

course webpage: <http://math.iisc.ac.in/~bharali/teaching.htm>

---

*Course Planning and Protocols*

*Online: November 11, 2020*

*Autumn Semester, 2020*

## 1 Forming the UM101 team

- **By 8:00 p.m. tonight** the [Meeting link](#) on the math department intranet page will be replaced by a [Team link](#).

## 1 Forming the UM101 team

- **By 8:00 p.m. tonight** the [Meeting link](#) on the math department intranet page will be replaced by a [Team link](#).
- **Go to this page a.s.a.p., click on the link, and request permission to join the team.**

## 1 Forming the UM101 team

- **By 8:00 p.m. tonight** the [Meeting link](#) on the math department intranet page will be replaced by a [Team link](#).
- **Go to this page a.s.a.p., click on the link, and request permission to join the team.** This link will launch Teams; click the **Join** button, and your request to be added to the UM101 team will be sent to me.

- Regardless of what e-mail account you most like to check, **please make it a habit to check your IISc Outlook e-mail account daily!** Communications related to UM101 will be sent only to your Outlook accounts.

## 2 Modalities for lecturing

- The first 3–4 lectures will be on Microsoft Teams.

## 2 Modalities for lecturing

- The first 3–4 lectures will be on Microsoft Teams. This will allow students who are absent today to join Teams, and to judge if the experience on Teams—access due to internet connection issues, ease of use, etc.—merits its use for lecturing.

## 2 Modalities for lecturing

- The first 3–4 lectures will be on Microsoft Teams. This will allow students who are absent today to join Teams, and to judge if the experience on Teams—access due to internet connection issues, ease of use, etc.—merits its use for lecturing.
- By Nov. 13 night/early-morning Nov. 14, I shall have posted an online poll to ascertain students' ability to manage online **real-time** teaching in an uninterrupted manner. **Your response to this online poll is mandatory!**

- How will tutorials be conducted? That is a separate discussion, which we will have when laboratory groups have been formed.

## 3 Getting started

- **Textbook:** Tom M. Apostol, *Calculus, Vol. 1*, 2nd Edition, Wiley, India Edition, 2011.

## 3 Getting started

- **Textbook:** Tom M. Apostol, *Calculus, Vol. 1*, 2nd Edition, Wiley, India Edition, 2011.

(**Note:** If you feel that your engagement with mathematical problem-solving in Class XII has been lower than the norm, then you may want to work through the exercises of **Thomas & Finney's** book. Please contact me via e-mail if you are in this situation.

## 3 Getting started

- **Textbook:** Tom M. Apostol, *Calculus, Vol. 1*, 2nd Edition, Wiley, India Edition, 2011.

(**Note:** If you feel that your engagement with mathematical problem-solving in Class XII has been lower than the norm, then you may want to work through the exercises of **Thomas & Finney's** book. Please contact me via e-mail if you are in this situation. But Thomas & Finney is **not** a substitute for Apostol!)

## 3 Getting started

- **Textbook:** Tom M. Apostol, *Calculus, Vol. 1*, 2nd Edition, Wiley, India Edition, 2011.  
(**Note:** If you feel that your engagement with mathematical problem-solving in Class XII has been lower than the norm, then you may want to work through the exercises of **Thomas & Finney's** book. Please contact me via e-mail if you are in this situation. But Thomas & Finney is **not** a substitute for Apostol!)
- The emphasis of this course will be on **problem solving**, which – at the 1st-year level at IISc – means both solving problems that involve calculations as well as giving simple proofs.

## 3 Getting started
