

CURRICULUM VITAE : SIDDHARTHA GADGIL

Citizenship. : Indian

Date of Birth. : 11 July 1974.

Education. :

- California Institute of Technology, 1995–1999
 - *Ph. D.* received in June 1999.
Thesis title: *On the geometric simple-connectivity of 4-manifolds.*
Advisor: David Gabai
 - *M.S.* received in June 1998
- Indian Statistical Institute, Calcutta, 1992–1995
Bachelor of Statistics (Honours) received in 1995

Positions Held. :

- *Professor* at the Indian Institute of Science 2012–
- *Associate Professor* at the Indian Institute of Science 2006–2012.
- *Associate Professor* at the Indian Statistical Institute, Bangalore, 2002–2006.
- *Simons Instructor* at the State University of New York, Stony Brook, 1999–2002
- *Graduate Teaching Assistant*, California Institute of Technology, 1995–98.

Research interests. :

- *Low-dimensional topology* including 3-manifold topology and geometric topology of smooth 4-manifolds.
- *Geometric Group theory* in particular connections with and applications of topology.
- *Automated Theorem Proving* and *Formal Mathematics*, primarily working with the Lean Theorem Prover.

PUBLICATIONS

Research Publications.

- (1) Das, Sumanta, and Gadgil, Siddhartha, and Nair, Ajay Kumar, *The Goldman bracket characterizes homeomorphisms between non-compact surfaces*, Algebr. Geom. Topol. (to appear), online at <https://arxiv.org/abs/2307.02769>.
- (2) Gadgil, Siddhartha, and Anand Rao Tadipatri., *Formalizing Giles Gardam's Disproof of Kaplansky's Unit Conjecture.* , Proceedings of the 13th ACM SIGPLAN International Conference on Certified Programs and Proofs , (2024), 177-189.

- (3) Das, Sumanta and Gadgil, Siddhartha, *Surfaces of infinite-type are non-Hopfian* , C. R. Math. Acad. Sci. Paris , **361** (2023), 1349-1356. (<https://doi.org/10.5802/crmath.504>) (<https://doi.org/10.5802/crmath.504>)
- (4) Gadgil, Siddhartha and Krishnapur, Manjunath, *Random words in free groups, non-crossing matchings and RNA secondary structures* , Indian J. Pure Appl. Math. , **54** (2023), 146-158. (<https://doi.org/10.1007/s13226-022-00240-x>) (<https://doi.org/10.1007/s13226-022-00240-x>)

INVITED LECTURES

- *The future of Automated and Interactive Theorem Proving and its possible impact on industry*, Industry-Academia conclave, IIT Palakkad, India, September 2024.
- *Autoformalization and Friends: Interactive Theorem Provers and Artificial Intelligence*, Workshop on AI and Mathematics, Chalmers University, Gothenburg, Sweden, August 2024.

- *Programs with Proofs and Meta-Programming in Lean*, Workshop on Formal Proofs and Lean, National University of Singapore, April 2024.
- *Towards Autoformalization and Mathematical Reasoning using language models*, seminar on Formalisation of mathematics with interactive theorem provers, University of Cambridge, UK, January 2024.
- *Lengths on Free groups*, TIFR, Mumbai, January 2020.
- *Lengths on Free groups*, Conference on Geometric Topology Indian Institute of Science Education and Research and Bhaskaracharya Pratishthana, Pune.
- *Free groups, Lengths and Computer Proofs*, IISER Thiruvananthapuram, November 2019.
- *Homogeneous length functions on Groups: A polymath adventure*, Ashoka University, April 2018
- *String Topology and the Geometric decomposition of three-dimensional manifolds*, East Asian Conference on Algebraic Topology, December 2017.
- *Automating Mathematics?*, IISER, Tirupathi, September 2017.
- *Triangulating Moduli spaces of Surfaces*, Conference on Topolgy and Geometry, IISER Bhopal, December 2015.
- *Metric Measure spaces and Random matrices*, Young Topologists Conference, Chennai, December 2013.
- *Topology of Manifolds : Constructing, Describing and Distinguishing spaces*, T.I.F.R. Young Indian Scientists Colloquium, September 2009.
- *Embedded spheres, intersection numbers and free groups*, International Conference on Surface mapping class groups, North-Eastern Hill University, Shillong 2008.
- *Heegaard Floer theory, Open manifolds and Teichmuller spaces*, Geometric Topology Conference, Peking University, Beijing, 2007.
- *Degree-one maps, surgery and low-dimensional topology*, North-Eastern Hill University, Shillong, October 2006.
- *The Quest for the best metric*, Conference on *Relativity and its impact on Mathematics*, Belgaum, September 2005.
- *Automorphisms of surfaces*, H.R.I., Allahabad, June-July 2005 (4 lectures).
- *Exotic \mathbb{R}^4 's and Ozsvath-Szabo invariants*, I.I.Sc. Mathematics Colloquium, 2005.
- *Symmetries of spheres*, Indian Academy of Sciences Annual Meeting, Varanasi, 2004.
- *Topological spherical space forms*, AMS-India meeting, Bangalore, 2003.
- *On the Andrew-Curtis conjecture and Algorithms from topology*, Frankfurt-Bochum group theory seminar, Frankfurt, 2003.
- *Topological spherical space forms*, Institut Fourier, Grenoble, 2003 (3 lectures).
- *Topological geodesics in 3-manifolds*, Colloquium, T.I.F.R., Mumbai, 2003.
- *Topological geodesics in 3-manifolds*, Colloquium, Chennai Mathematical institute, 2002.
- *Contact structures on 3-manifolds*, Colloquium, T.I.F.R., Bangalore, 2002.
- *A topological characterisation of hyperbolic groups (following Bowditch)*, Workshop on Topological methods in Group theory, I.M.Sc., Chennai, 2002 (3 lectures).

- *Random walks and Contact geometry*, Groupes et leurs applications en géométrie et topologie, Institut Fourier, Grenoble, 2002.
- *Equivariant framings, Space forms and Contact structures*, Groupes et leurs applications en géométrie et topologie, Institut Fourier, Grenoble, 2002.
- *On the Andrews-Curtis conjecture and Algorithms from Topology*, Groupes et leurs applications en géométrie et topologie, Institut Fourier, Grenoble, 2002.
- *On the Andrew-Curtis conjecture and Algorithms from topology*, Special session in Computational topology, American Mathematical Society National meeting, San Diego, January 2002.
- *On the Andrew-Curtis conjecture and Algorithms from topology*, Topology Seminar, University of Melbourne, August 2001.
- *Topological Geodesics in 3-manifolds*, Topology seminar, University of Melbourne, August 2001
- *Equivariant framings of 3-manifolds*, Seminar, T.I.F.R., Mumbai, June 2001
- *Cobordisms and Reidemeister torsions of homotopy lens spaces*, Seminar, T.I.F.R., Mumbai, January 2001
- *Introductory lectures (five lectures) on 3-manifolds*, Instructional Conference in low-dimensional topology, Allahabad, December 2000.
- *Finite groups that act on S^3 without fixed points*, Colloquium, I.I.Sc., Bangalore, June 2000
- *On the Andrew-Curtis conjecture and Algorithms from topology*, West Coast topology colloquium, Stanford University, April 1999

SOFTWARE

I have been developing software for mathematics and AI, all of which is open source. From about April 2021, I have focussed on working with Lean Prover 4, using it as a programming language and a theorem prover working together seamlessly. Some of my projects with these are the following:

- **LeanAide**: AI tools to work with the Lean Theorem Prover for autoformalization as well as attempts at proof discovery.
- **Saturn**: A SAT solver-prover in lean 4, i.e., a DPLL SAT solver returning solutions with proofs of correctness. This is not high performance, but is one of the larger proved programs in Lean 4.
- **Polylean**: containing Gardam's disproof of Kaplansky's conjecture (with Anand Rao Tadipatri) as well as lean replication of the PolyMath code.
- **LeanSearchClient**: Provides Lean syntax to use the APIs of Moogle, Loogle, and Mathlib search. This is a small amount of code, but has the distinction of being one of very few Mathlib dependencies, and is widely used.

My main automated theorem proving activity before switching to Lean 4 is open sourced at **ProvingGround**, consisting mainly of scala code. This was an implementation of a dependent type-theory based Automated theorem prover in scala. It was a prototype, without the performance or interfaces of a full-fledged ITP.

INDUSTRY COLLABORATIONS

- Consulted for *Blue Raven, Singapore* on AI related to mathematics. Specifically, my role was to provide Lean metaprogramming expertise to their team. June – August 2023 (three months for 20 hours per month).
- Organized and lectured in training on Type Theory and Logic for Formal methods for *Alstom, Bangalore*. This was over the course of two months.

COURSES TAUGHT

I have taught many of these courses more than once.

- Proofs and Programs (new course).
- UM 102: Analysis and Linear Algebra II (IISc core course).
- Introduction to Homotopy type theory (new course).
- Introduction to Algebraic Topology.
- Algebraic Topology.
- Topology.
- Logic, Types and Spaces (new course).
- Basic Analysis.
- Elementary Algebra and Number Theory.
- Algebra I.
- Symplectic Topology (new course).
- Mathematical Logic (new course).
- Cohomology of Manifolds and Groups (new course).
- Topology and Geometry.

Honours and Awards. :

- Accelerating Foundation Models Research Award from Microsoft Research, 2023.
- *NASI-Scopus Young Scientist Award* from Elsevier, 2010.
- *Platinum Jubilee medal for Young Scientist*, National Academy of Sciences India, 2008.
- *Indian National Science Academy medal for Young Scientists*, 2008.
- *Ganesh Prasad Memorial Award lecture* at the Indian Mathematical Society, 2007.
- *Associate of the Indian Academy of Sciences*, 2003-2008.
- *Sloan dissertation fellowship* in Mathematics, 1998-99.

Grants received.

- *Accelerating Foundation Models Research Award*, Microsoft Research, 2023. Azure credits worth \$20,000.
- Research credits from *Google* for using their cloud services, 2022 (worth about \$5000).
- *Homotopy Type theory and Natural language processing for Computer-Assisted Mathematics*, SERB extra-mural grant, 2018-2021.

OTHER ACTIVITIES

- Member of Committee for making the Artificial Intelligence policy for the Indian Institute of Science, 2023.

- Member of the Senate Curriculum Committee, I.I.Sc., 2013-2015.
- Member of the UGC review committee for Chennai Mathematical Institute, 2018.
- Member selection committees for the faculty of IISER Bhopal, IISER Tirupathi and IIT, Hyderabad.
- Member of the UGC advisory committee for the Department of Mathematics, NEHU, Shillong, 2016-2021.
- Co-organiser of the ICM Satellite Conference on *Geometric Topology and Riemannian Geometry*, June 2010.
- Co-organiser of the International Conference *Geometric method in low-dimensional topology*, IISc, Bangalore, June 2006.
- Member, Programme Committee, International Center for Theoretical Science, 2010-2012.
- Co-organiser of the conference ‘Low-dimensional manifolds and Groups’, ISI, Bangalore June 2004.
- Co-organiser of the Geometry/Topology seminar at Stony Brook, 1999-2002
- Member, Graduate committee, Department of Mathematics, Stony Brook, 2001-2002
- Colloquium chair, I.S.I. Bangalore, 2005-2006
- Seminar-in-charge, IISc, Bangalore, 2006-2009
- Member, Research fellows advisory committee, I.S.I. Bangalore, 2005-2006
- Convener, computer committee, I.S.I. Bangalore, 2004-2006
